# “ASK QUESTIONS, DON'T BE SHY”

**Meet Sapir**, a Workshop Technician at Edwards Service Technology Centre. Sapir enjoyed her time as a radio operator in the army and decided to study mechanical engineering.

Sapir's advice to women considering a career in engineering?

“It is important to always ask questions and not be shy. Be involved in every detail of the process to get a profound understanding”

At Edwards, we empower our people to be the most skilled in the industry. If you'd like to be part of a winning team, visit [edwardsvacuum.com](https://www.edwardsvacuum.com)
